Notes to Financial Statements for the Year Ended 31st March 2019

1A Corporate Information

Jharkhand Bijli Vitran Nigam Limited (JBVNL)

Jharkhand Bijli Vitran Nigam Limited (The Company), a Limited Company, incorporated under the Companies Act, 1956, came into existence October 23, 2013 (CIN U40108JH2013SGC0-01702) as a result of the unbundling of the erstwhile Jharkhand State Electricity Board (JSEB) into four companies. The Company is a wholly owned subsidiary company of "Jharkhand Urja Vikas Nigam Ltd (The Holding Company).

The main objective of the Company is distribution of reliable and quality supply of electricity at reasonable and competitive tariff so as to boost agriculture, industrial and overall economic growth and development of Jharkhand. In order to achieve the main objective, the company has undertaken the activities of distribution to all consumers irrespective of the voltage, provision, supply, wheeling, purchase, sale, import, export and trading of electricity, introduce open access in distribution as per the Jharkhand Electricity Regulatory Commission directives. The tariff of the company is regulated by the Jharkhand Electricity Regulatory Commission.

The registered office of the Company is located at Engineering Building, HEC, Dhurwa Ranchi - 834004, in the State of Jharkhand. JBVNL is a state owned public sector company engaged in the business of electricity distribution. The company is involved in distribution of electricity to different categories of consumers like HT, LTIS, DS, NDS, IAS, etc. in 7 electric supply areas, viz. Ranchi, Dhanbad, Singhbhum, Hazaribagh, Giridih, Dumka and Medininagar.

1B Statement of Compliance

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with section 133 of the Companies Act, 2013 (as amended from time to time).

2. Basis of preparation and presentation

The Financial Statements have been prepared on historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the Accounting Policies below.

As the operating cycle cannot be identified in normal course due to the special nature of industry, the same has been assumed to have duration of 12 months. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS-1 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

The financial statements have been prepared on an accrual basis except in the following cases, where cash basis accounting have been adopted

- Grant received from Government
- Interest recognition on mobilisation advances

2.1 Use of Estimates and Judgments

In the application of the Company's accounting policies, management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects

Handwritten signature in blue ink.

Handwritten signature in blue ink.

both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

2.2 Presentation and disclosure of Consolidated Financial Statements

During the year ended 31st March 2019, the revised Schedule III notified under the Companies Act 2013 in line with IND AS, has become applicable to the company, for preparation and presentation of its Consolidated Financial Statements. It has significant impact on presentation and disclosures made in the Consolidated Financial Statements. The company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

2.3 Basis of Consolidation

The Financial Statements of joint venture companies are drawn up to the same reporting date as of the Company for the purpose of consolidation.

Interests in joint ventures are accounted for using the equity method as stated below, after initially being recognized at cost in the consolidated balance sheet.

Equity Method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income (OCI) of the investee in OCI. Dividends received or receivable from joint ventures are recognized as a reduction in the carrying amount of the investment.

2.4 Other Significant Accounting Policies

1. Property, Plant and Equipment

- Property, plant and equipment are initially measured at acquisition or production cost, including interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use, estimated decommissioning or restoration cost and other incidental expenses incurred up to that date. After recognition, the Property, Plant and Equipment are measured on Cost model for each class of assets as provided in Ind AS 16.

- JBVNL has the following classes of assets:

S No.	Assets Class
1.	Land & Land Rights
2.	Buildings
3.	Civil Works
4.	Plant and Machinery
5.	Lines & Cable Network
6.	Vehicles
7.	Furniture and Fixtures
8.	Office equipment
9.	Spare Units/Service Units
10.	Assets taken over from pending final valuation

- Consumer Contribution or Government Grants do not reduce the acquisition of the respective assets. Government Grants have been reported separately under Note 17- Government Grants and Consumer Contribution has been reported under Note 18- Other Non-Current Liabilities.
- Subsequent costs arising, for example, from additional or replacement capital expenditure are only recognized as part of the acquisition cost of the asset, or as a separate asset if it is probable that JBVNL will receive a future economic benefit and the cost can be determined reliably.
- Repair and maintenance costs that do not constitute significant replacement capital expenditure are expensed as incurred.
- Fixed assets acquired and put to use for project purposes are capitalized and depreciation thereon are included in the project cost till commissioning of the project.
- Payments made towards compensation and other expenses relating to land are treated as cost of land.
- Machinery spares are recognized as a separate asset, if it is probable that JBVNL will receive a future economic benefit and the cost can be determined reliably.

2. Depreciation

- Depreciation on property, plant and equipment has been calculated at rate prescribed in JSERC MYT Regulations, 2015, vide notification no. 33 & 34, dated 27th October 2010, notification no.35 dated 1st November 2010 and notification no. 46 dated 10th November, 2015.
- Depreciation rate for different class of assets are provided in below-mentioned table:

S No.	Assets Class	Depreciation Rates
1.	Land & Land Rights	0%
2.	Buildings	3.02%
3.	Civil Works	3.02%
4.	Plant and Machinery	7.84%
5.	Lines & Cable Network	7.84%
6.	Vehicles	33.40%
7.	Furniture and Fixtures	12.77%
8.	Office equipment	12.77%
9.	Computers & IT Equipment	12.77%

- Depreciation commences when the assets are ready for their intended use.

3. Capital work-in-progress

- Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.
- Interest and inspection charges incidental to the construction of fixed assets are capitalised with the assets.

4. Intangible assets

- Intangible assets are initially measured at cost. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates.
- After recognition, each classes of Intangible assets are measured on cost as provided in Ind AS 38.
- Subsequent expenditure on an intangible asset after its purchase / completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.
- The cost of computer software/licences recognized as intangible asset is amortized on straight-line method in line with the rate of Office Equipment.

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

5. Government grants and subsidies

- Government grants and subsidies are recognized when there is reasonable assurance that JBVNL will comply with the conditions attached to them and the grant / subsidy will be received.
- Government grants whose primary condition is that JBVNL should purchase, construct or otherwise acquire capital assets are treated as deferred income and charged to the profit and loss account in proportion to depreciation over the useful life of the assets. The acquired or constructed assets from government grants are recognized at cost and depreciated over the useful life of the asset.
- Non-monetary grants, assets given at concessional rate are recognized at fair value by setting up the grant as deferred income. The deferred income is charged into profit and loss in proportion to depreciation over the useful life of the asset.
- Forgivable loans are recognized as a government grant when there is a reasonable assurance that JBVNL will meet the terms of forgiveness of the loan.
- Loans receive at a concessional rate are recorded at fair value and the benefits of concessional rate of interest are recognized as government grant
- Other government grants and subsidies are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

6. Financial Instruments

- A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
- Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.
- Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities measured at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Financial Assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial Assets at amortized cost

Financial assets are subsequently measured at amortised cost using the effective interest rate method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, the Company makes an irrevocable election on an instrument-by-instrument basis to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments, other than equity investment which are held for trading. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A handwritten signature in blue ink, appearing to be "M".

A handwritten signature in blue ink, appearing to be "P".

A handwritten signature in blue ink, appearing to be "K".

A handwritten signature in blue ink, appearing to be "A".

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Other financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition.

Investment in Subsidiaries, Jointly Controlled Entities and Associates

Investment in subsidiaries, jointly controlled entities and associates are measured at cost less impairment as per Ind AS 27 - Separate Financial Statements.

The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted in the statement of profit and loss.

Derecognition

The company derecognises a financial asset when the contractual right to the cash flow from the asset expire, or when it transfers the financials the financial asset and substantially all the risk and reward of the ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in statement of profit and loss.

Financial liability and equity instrument**Classification as debt or equity**

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the Effective Interest Rate (EIR) amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

7. Revenue

The company is in the business of electricity distribution operations and it earns revenue primarily from sale of power. Revenue from others comprises interest from banks, surcharges received, interest on advances, supervision charges, etc.

A handwritten signature in blue ink, consisting of a stylized 'M' followed by a horizontal line.

A handwritten signature in blue ink, appearing to be 'N' followed by a horizontal line.

A handwritten signature in blue ink, consisting of a stylized 'h' followed by a horizontal line.

Effective from 1st April 2018, the company has adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative effect method, applied to the contracts that were not completed as of 1st April 2018 and therefore the comparatives have not been restated and continues to be reported as per Ind AS 18 "Revenue".

Revenue from contracts with customers for sale of power is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is recognized net of cash discount over time for each unit of electricity delivered at the pre-determined tariff rate. Revenue from sale of energy is accounted for based on tariff rates approved by the JSERC. Beneficiaries are billed on a periodic and regular basis. As at each reporting date, revenue from sale of energy includes an accrual for sales delivered to beneficiaries but not yet billed i.e. unbilled revenue.

Delayed Payment Surcharge: Delayed payment charges and interest on delayed payments are recognized, on grounds of prudence when recovered.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Income from services like supervision charges are recognized as and when the amounts are received.

8. Power Purchase

The power purchased from the generation company falling under the jurisdiction of CERC / JSERC is recorded at the tariff rate decided by the respective regulator. Any supplementary bill due to change in Tariff ad power purchase rebates given by the supplier also form part of the cost of purchase of Power.

9. Inventories

Inventories have been valued at the cost.

10. Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand, bank overdraft and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

11. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of JBVNL are segregated based on the available information.

12. Current vs. Non-Current

JBVNL presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle

Handwritten signatures in blue ink at the bottom of the page.

- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

JBVNL classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

JBVNL has identified twelve months as its operating cycle.

13. **Employee benefits**

Employee benefits include provident fund, pension fund, superannuation fund, gratuity fund, compensated absences, long service awards and other post-employment benefits.

Post-retirement Benefits

- Defined contribution plan - payment to defined contribution retirement benefits plans are recognized as an expense when employee have rendered service entitling them to the contribution.

The Company has a defined contribution plan for provident fund which is administered through a separate trust.

- Defined benefit plan - The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity and pension plans is the present value of the defined benefit obligation at the end of the reporting period. The year's liability is estimated on the basis of actuarial valuation made using the Projected Unit Credit Method and is charged to the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in Other Comprehensive Income and in the Balance Sheet.

The Company has a defined contribution plan for Gratuity and Pension fund which is administered through a separate trust.

- Other Long Term Employee Benefits - Other Long Term Employee Benefits comprise of leave encashment. The leave benefits are recognized based on the present value of defined obligation and the year's liability is estimated on the basis of actuarial valuations using the Projected Unit Credit Method and is charged to the Statement of Profit and Loss.

Short-term employee benefits

- A liability is recognized for benefits accruing to employees in respect of wages and salaries, leaves in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.
- Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

14. **Borrowing costs**

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment and on mobilisation advances of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

[Handwritten signature]

All other borrowing costs are recognized in statement of profit and loss in the period in which they are incurred.

15. Segment Reporting

Since the Company has only one integrated business, i.e. Distribution of power, it has no reportable segment.

16. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

17. Taxes on income

The tax expenses for the year comprises current and deferred tax. Tax expenses are recognized in the income statement only to the extent it relates to the items recognized in profit and loss. Taxes on items recognized in other comprehensive income and directly to equity, are also recognized in other comprehensive income and directly in equity.

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that JBVNL will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to JBVNL.

Deferred Tax

Deferred tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in JBVNL's financial statements. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

Deferred tax assets in respect of carry forward unused losses and tax credit are recognised only to the extent that it is probable that future taxable profit will be available, against which the temporary differences can be utilized. If JBVNL has a history of tax losses, deferred tax assets is recognized to the extent that JBVNL has sufficient temporary

differences or there is convincing other evidence that sufficient taxable profit will be available.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and JBVNL has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realize ability.

The carrying amount of deferred tax assets and liabilities are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

18. **Provisions and contingencies**

Provisions are recognized when JBVNL has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount.

A contingent liability has been disclosed where the existence of an obligation has been confirmed by future events or where the amount of the obligation cannot be measured reliably. Contingent assets are not recognized, but are disclosed where an inflow of economic benefits is probable.

Mr. Sachin *h dh*

In the standalone financial statements of JBVNL for FY 2018-19, the Investment in share application money of PVUNL of Rs. nil has been disclosed for previous FY 2017-18. However, on reconciliation of the books of JBVNL and PVUNL, it is noted that, the investment in share application money of PUVNL is understated by Rs 1124.32 Lakh for the previous reporting period FY 2017-18. Accordingly, JBVNL has prepared the Consolidated Financial Statements for the FY 2018-19 after restating the Investment in share application money of PVUNL to Rs 1124.32 Lakh for the previous reporting period FY 2017-18.

The corresponding liability for restating the Investment has been recognized as deemed loan from Government of Jharkhand in the same year. Refer Note 14 for reference.

Note 30: Disclosures as per Ind as 112 'Disclosures of Interest in Other Entities'

The Company has entered into Joint agreement with NTPC Ltd. (NTPC) for forming a JV namely Patratu Vidyut Utpadan Nigam Limited (PVUNL), in which the parties have joint control, through holding the shares of PVUNL. Interest of the JV partners in the project are as follows:

JBVNL : 26%
NTPC : 74%

The JV, has been formed to develop coal based thermal power plant in phases of 3x800MW by FY 2019-20 and 2x800MW by FY 2021-22 totaling to 4000MW.

PVUNL has yet to start its operations of generating power as the construction work of the Power Plant at Patratu is going on. During the F.Y 2018-19, the company incurred a loss of Rs. 137.65 lakh its accumulated losses as on 31.3.2019 is Rs 142.52 lakh.

a. Details and Financial Information of Joint Venture at the end of the reporting period is are follows:

Name of the joint Venture Company	Place of Business / Country of incorporation	Principle Activity	Ownership interest held by the Company (in %) as at		Carrying Amount as at	
			31 st Mar 2019	31 st Mar 2018	31 st Mar 2019	31 st Mar 2018
Patratu Vidyut Utpadan Nigam Limited	India	Generation of Electricity	26%	26%	Equity Shares PVUNL - Rs. 8225.98 Lakh	Equity Shares PVUNL - Rs. 3236.79 Lakh and Share Application Money - Rs 1124.32 Lakh

- Based on the reconciliation for all years, for the shareholding, we have recognised an additional investment in the books in the previous year of Rs. 31.34 Cr. On the basis of the JV agreement, the full amount of investment except Rs. 1.03 Cr has been recognised against deemed loan from Government of Jharkhand on which no interest has been provided for.
- In the standalone financial statements of JBVNL for FY 2018-19, the Investment in share application money of PVUNL of Rs. nil has been disclosed for previous FY 2017-18. However, on reconciliation of the books of JBVNL and PVUNL, it is noted that, the investment in share application money of PUVNL is understated by Rs 1124.32 Lakh for the previous reporting period FY 2017-18. Accordingly, JBVNL has prepared the Consolidated Financial Statements for the FY 2018-19 after restating the investment in share application money of PVUNL to Rs 1124.32 Lakh for the previous reporting period FY 2017-18. The corresponding liability for restating the investment has been recognized as deemed loan from Government of Jharkhand in the same year. Refer Note 5 and 14 for reference.

- Depreciation:** Depreciation charged during the year includes Rs 181.95 Cr. towards assets funded by government grants under RGGVY Scheme and Rs

Handwritten signatures in blue ink, including a large signature and several smaller ones.

18.06 Cr towards assets funded under Deposit head. An equal amount of depreciation on grant funded assets has been amortized under the head of "Other Income" and for the Deposit Head funds, equal amount is shown under the head Revenue from Operations as "Receipt from Consumers for capital works".

(Refer Note 3A: Property Plant, Equipment, Note 23: Revenue From Operations and Note 24B: Other Income-Others)

3. Grants and Subsidy

- i. During the financial year 2018-19, JBVNL received a total of Rs. 1846.98 Cr. as capital grant (Rs. 1449.02 Cr. from Central Government, 238.41 Cr. from State Government and Rs.159.55 Cr. from PFC) for various projects under different schemes and amortized capital grant by Rs 181.95 Cr. during the said period resulting in net positive movement during the year of Rs 1769.93 Cr. (Refer Note 17: Government Grant and Note 24B: Other Income -Others)
- ii. Apart from above, Company has received Revenue Grant of Rs.1250 crore as a resource gap/regulatory disallowance from the state Government booked as other income in the Profit & Loss Statement. (Refer Note 24A: Other income- Revenue Grant from Government)

4. Capital Advances and other non-current assets

JBVNL has made capital advances of Rs 502.13 Cr. till 31st March, 2019 to vendors/suppliers for various capital projects running under different schemes.

Other non-current asset include an item of Rs 5685.02 Cr. which is receivable from Government of Jharkhand as stipulated in "The Jharkhand State Electricity Reform Revised Transfer Scheme 2015" vide Notification no. 2917, Ranchi dated 20.11.2015. (Refer Note 6: Other-Non Current Assets)

5. Inventories

Inventories of Rs 292.05 Cr. are materials and spare parts held for the purpose of both capital work as well as repair and maintenance work of capital assets like Transformers and Lines & Cable Network. The inventory for capital work has been regrouped from Capital Work In Progress to Inventory in the current year. (Refer Note 7: Inventories)

6. Other Reserves and Retained earnings

Negative other reserves of Rs. 1038.45 Cr. includes remaining amount of Rs 2.10 Cr. to be issued as equity under the Revised Transfer Scheme. In addition, restructuring (additional) account having a negative balance of Rs 1040.54 Cr. is towards adjustments for period before 6.1.2014. (Refer Note 13: Other Equity)

The incomes/expenses of previous year has been booked under Retained Earnings in line with IND AS 8. An amount of Rs 484.88 Cr. accounted as expense in earlier year towards DPS on power purchase, billing corrections/discounts/charges, other incomes/expenses has been adjusted with the retained earnings in the previous year of 2017-18 and correspondingly the liabilities and assets towards such income or losses have been reinstated to the same tune. (Refer Note 13: Other Equity and Note 8: Trade Receivables and Note 19: Trade Payables)

7. Borrowings

During the F.Y 2018-19, JBVNL received a total of Rs 1519.74 Cr. of loans towards various capital projects from Central Government, State Government and PFC. In addition, the company has recognized a deemed loan from Government of Jharkhand towards the cost of investment in the joint venture in PVUNL. The company repaid NIL amount towards the loan received. The Total amount of Loan as on 31st March, 2019 stood at Rs 10,148.82 Cr. which includes Rs 6136.37 received under UDAY Scheme.

The company received an amount of Rs 6136.37 Cr. in the F.Y 2015-16 under Uday Scheme for the financial turnaround of the company. The amount so received has been recognized as loan in the books. The same, however, will be converted into Grant (75%) and Equity (25%) as per the MOU signed between Ministry of Power, Government of India, Government of Jharkhand and Jharkhand Bijli Vitran Nigam Limited on 25th September, 2015. All the necessary steps are being taken to convert the same into grant and equity in line with the MOU. Accordingly, no interest has been provided on the said amount.

Of the total loan of Rs 10,148.82 Cr., Rs 437.63 Cr. has become due for payment as on 31st March, 2019 and interest payable on the loan amounting to Rs 549.02 Cr. has not been paid as on 31st March, 2019.

An adjustment of H.E.C bill of Rs.116.42 crore from arrear DPS amount by memo no.1303 dt.05.10.2018 against payment of JBVNL to State Government has been made from the interest payable amount.

(Refer Note 14a: Borrowings-Financial Liability, Note 14b: Borrowings- Current Financial Liability and Note 20: Other Current Financial Liabilities)

8. Revenue from Operations

Revenue from Operations of Rs 4108.56 Cr. represent mainly the sale of energy to various categories of consumers made during the year. The amount also includes Rs 18.06 Cr. towards amortization of consumer contributions received for capital works/service connections. (Refer Note 23: Revenue from Operations)

13. Other Current Assets

a) Tax Advances to Income Tax Authorities

An amount of Rs 14.95 Cr was deposited to Income Tax Department as TDS on the works of various turnkey contractors. The amount so deposited remained unutilized. Necessary steps have been taken to get the refund of the said amount and a case to this effect has also been filed with the High Court. The amount is shown in Note 11: Other Current Assets under "TDS & Advances to Authorities "under Taxes.

b) Inter-Company Transactions

Handwritten signatures and initials in blue ink.

This head includes balances of transactions with JUVNL, JUUNL and Patratu Thermal Power Station which are related parties.

(Refer Note 11: Other Current Assets and Note 15: Provisions)

14. Deferred Tax

The company has not recognized deferred tax asset on a prudent ground which will arise on account of accumulated losses net of deferred tax liability arising out of timing difference in case of Depreciation on PPE between the computation as per Companies Act and Income Tax Act.

15. Contingent Liabilities and provisions

Provisions are recognized when JBVNL has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount.

A contingent liability has been disclosed where the existence of an obligation has been confirmed by future events or where the amount of the obligation cannot be measured reliably. Contingent assets are not recognized, but are disclosed where an inflow of economic benefits is probable.

16. Employee Benefits

The company has recognized the terminal benefits liabilities based on Actuarial Valuation. The corresponding liabilities have been recorded net of existing liabilities in the books with corresponding asset under Master Trust.

(Refer Note 11: Other Current Assets and Note 15: Provisions)

17. The figures of previous years has been regrouped or reclassified, wherever it was felt necessary for the True and Fair presentation of Financial Statement.

32 Financial risk management and Capital Management

The Company's operations of distribution of electricity are governed by the provisions of the Electricity Act 2003 and Regulations framed thereunder by the Jharkhand Electricity Regulatory Commission and accordingly the Company, being a licensee under the said statute, is subject to regulatory provisions/ guidelines and issues evolving therefrom, having a bearing on the Company's liquidity, earning, expenditure and profitability, based on efficiency parameters provided therein including timing of disposal by the authority.

The Company has been managing the operations keeping in view minimization of losses and liquidity in terms of the above regulations. In order to manage the credit risk arising from sale of electricity, multipronged approach is followed like maintenance of security deposit, precipitation of action against defaulting consumers and obtaining support of the administrative authority. Availability of capital and liquidity is also managed, in consonance with the applicable regulatory provisions.

While managing the capital, the Company ensures to take adequate precaution for providing returns to the shareholders and benefit for other stakeholders, including protecting and strengthening the balance sheet.
